**AMENDMENTS TO THE DRAWINGS**: None

REMARKS/ARGUMENTS

The examiner's extensive review of the references and claims is appreciated. . Reconsideration of the application in light of these amended claims is requested. The specification change fixed a typo. The amendments made clarified the claims. It is noted that claim 1 now has "<u>causing said recording mechanism to store one or more of multiple event entries into main memory of said processor , wherein the said multiple storing of entries from the FIFO does not affect the state of the FIFO event read pointer or event write pointer</u>" which the examiner recognized as an inventive contribution to the art.

It is believed that this application now stands in condition for allowance. A notice of allowance is now respectfully requested.

Respectfully Submitted,
 For the Inventor(s):
